**Night Float Team Expectations**

Caps: New admissions per night: 5 per Intern, 10 per Resident  
The ACGME does not apply the 48 hour caps to Night Float.

Schedule: Sunday through Thursday:
- 4:00pm – 4:30am  Check-out from day teams to early intern  
- 7:00pm – 7:30am  Check-out from early intern to resident and late intern  
- 3:30am – 4:00am  Check-out from early intern to late intern  
- 6:45am – 7:00am  Check-out to day teams  
- 7:00am – 8:00am  Morning Report/EKG Conference

Early intern hours are 4:00pm – 4:00am.  
Late intern hours are 7:00pm – 7:00am.  
Resident hours are 7:00pm – 7:00am.

Early intern may be required to help with admissions from 4-7pm if deemed necessary by the long call resident.  
Night float team admits all non-ICU patients from 7pm-7am.

Cross-cover: When you assess a patient at the bedside, you MUST complete a brief note in the chart.  
Please help the interns with prioritization of duties. Especially as they gain experience, they want to do more on their own, but don’t recognize they can use help. Check in with them frequently to see if they need help assessing a patient. As you know, someone on the floor may need urgent assessment instead of admitting a patient who has already had care started in the ED.  
If nursing asks to call a Rapid Response Team on a patient, do not stop them. Most often they are looking for more nursing support, not the ICU resident. In fact, you might want to call an RRT yourself if you need ICU nursing or Pharmacy at the bedside.

FIT Pager: For Caritas patients who call, you must enter a telephone encounter in eSummit in the ambulatory context. Please do not refill meds after hours or on weekends. If the patient requests a refill, create a telephone encounter and route to the resident of the month pool (P HN GME INT MED RESIDENT OF THE MONTH).  
For Caritas patients in the ED who need urgent follow-up, or for new patients in the ED whom they would like to refer to Caritas urgently, call Jean at x61571, or e-mail Jean.Cunningham@sclhs.net with patient name, DOB and reason for follow-up.

Conference: Night Float Team presents one case on Monday, Tuesday, and Thursday with a teaching point. Keep teaching points to 2-3 minutes, and present new information or studies.
