We’re on a Mission for Kids

St. Vincent Healthcare and our Foundation are proud to be the originators of St. Vincent Healthcare’s Children’s Hospital. With state-wide partners, our ambition is to transform pediatric care in our region forever. In the past seven years we’ve made amazing strides thanks to philanthropic support. With Montana and Wyoming’s only full-scale PICU for children, the Fortin Regional Pediatric Specialty Clinic, and unique pediatric specialist services, we are making a difference in the lives of the smallest, most fragile children in our region.
Regional Cancer Care Excellence

St. Vincent Frontier Cancer Center, with Dr. Lee McNeely at the helm, started the CyberKnife program in August 2010 thanks to a generous gift from The Leona M. and Harry B. Helmsley Charitable Trust. With this state-of-the-art equipment and cutting-edge CyberKnife medical leadership, St. Vincent’s cancer program will offer hope to many patients managing lung, brain, prostate and other tumors.

Paul Metzger – Supporting the Healing Ministry

The Metzger family was one of the Billings area’s founding families, farming for many years near Duck Creek along Metzger Road. Paul Metzger was a farmer, investor and a philanthropist with a passion for supporting our local community. At his passing, Mr. Metzger left a large bequest to the mission of St. Vincent Healthcare, which will support the pediatric initiatives of the hospital for come years. We are honored to carry on Mr. Metzger’s legacy through his philanthropic commitment.

Board of Directors

Special recognition and thanks go to our Board of Directors. This community board members give generously of their time and talent to guide the Foundation toward our goal of building a healthier community.
Heart and Vascular Center of Excellence

Utilizing the Steve and Debbie Regier Hybrid Operating Suite for complex, largely non-invasive heart procedures has been an amazing gift to patients in the region. Advancements in valve replacement surgery, completed in the safety of the hybrid operating room, offer hope to heart patients who, prior to these cutting edge procedures, were limited in their options.
