ANNUAL REPORT 2015
Strengthening Our Roots, Growing Our Future.
Fellow Healthcare Philanthropists:

The excellent caregivers at St. Vincent Healthcare rely on the generous support of philanthropists near and far to deliver superior care 24/7, 365 days a year. It is with tremendous pride in St. Vincent Healthcare that I draft my first annual letter of gratitude to our donors in recognition of giving in 2015. The patients are the direct recipients of your benevolence.

In this report you will experience an inspiring list of donors and friends of St. Vincent Healthcare. You will also be provided with updates to our programs throughout our care site, illustrating examples of excellence and growth at St. Vincent Healthcare. Each one of our donors has a special interest in advancing care, providing needed capital for innovation, and giving our caregivers the best opportunity to heal our patients. Our hope is to use this annual report as a tool to provide a snapshot of how philanthropy is impacting care.

St. Vincent has a long tradition of philanthropic support from our community. Thanks to our sponsors, supporters and legacy donors, we have been able to carry out the Mission, Vision and Values that our fore sisters and fore fathers began to establish in 1898. People are at the core of our values. We believe in “People Healing People” and it starts with kind and generous givers like you. We are forever grateful to you and all our friends of St. Vincent Healthcare. I invite you to read with joy about the people of St. Vincent Healthcare and continue this journey with us in “People Healing People.”

With gratitude,

Dennis Sulser

MISSION
We reveal and foster God’s healing love by improving the health of the people and communities we serve, especially those who are poor and vulnerable.

VISION
Inspired by our faith,
• We will be distinguished as the premier person-centered health system and trusted partner.
• We will share accountability with clinicians and other stakeholders to coordinate care across all settings and improve access, quality, health outcomes and affordability.
• We will grow as community-based health networks to serve more people in partnership with others who share our vision and values.

VALUES
These values describe how our actions will be guided as we work toward our vision. Each is of equal importance.

Caring Spirit:
We honor the sacred dignity of each person.

Excellence:
We set and surpass high standards.

Good Humor:
We create joyful and welcoming environments.

Integrity:
We do the right thing with openness and pride.

Safety:
We deliver care that seeks to eliminate all harm for patients and associates.

Stewardship:
We are accountable for the resources entrusted to us.

FOUNDATION PRESIDENT/CEO:
Thank You to Our Donors

### St. Vincent Healthcare Foundation

#### Board of Directors

Special recognition and thanks go to our Board of Directors. These community members give generously of their time and talents to guide the Foundation toward our goal of building a healthier community.

![Board of Directors](image)
The St. Vincent Healthcare Foundation is pleased to announce that it is nearly halfway to reaching the $2.5M pledged goal of the $17M modernization of the ICU at St. Vincent Healthcare. Many physicians, associates, and community members have risen to the challenge of supporting this essential cause. We thank you!

The newly renovated and modernized ICU will mirror the exceptional care that the caregiving teams currently provide within our ICU. St. Vincent Healthcare is the only hospital in the Billings area with a 24 hours a day, 7 days a week, 365 days a year in-house Intensivist physician. The renovation will include an additional 3,000 square feet. Each patient room will double in size, allowing room for family, the accommodation of more advanced equipment, and suitable healing. Additionally, each room will have a window so natural light can reach the patient, benefiting the healing process.

Renovation will begin during the summer of 2016, and will be completed by the end of 2018. This is one of the largest overhauls of the hospital in many years. Our St. Vincent Healthcare family is very excited for the outcome of this renovation, which will enhance the already exceptional care our patients receive. To get involved and help us rise to this challenge, please contact Megan Stovall at the St. Vincent Healthcare Foundation at 406-237-3616.

We are excited and thankful for the great progress on the 3Fortin remodeling project. In phase I of construction, eleven patient rooms underwent construction. This renovation includes a new bariatric room, a modernization to our existing private waiting room, a new combined Unit Clerk and Clinical Supervisor office area, and newly designed patient shower rooms and nurses’ station. On the east end of the unit are four negative pressure isolation rooms which keeps air from flowing out of the isolation room and into adjacent rooms or areas. Phase I was completed during the week of February 22nd, and patients were able to utilize this new space as of February 26th. The beautiful new area includes computers in all patient rooms and a clean, healthy environment that is a blessing to both our patients and staff. The decentralization of our nurses’ stations allows our nurses to get closer to patient rooms, which in turn, helps improve response time to patient needs. In addition to response time, the decentralized nurses’ stations contribute to a quieter and more therapeutic environment. The new area also includes the updated nurse call system.

CAMPAIGN UPDATE: Intensive Care Unit – ICU

CAMPAIGN UPDATE: Pediatric Intensive Care Unit – PICU

When children experience conditions that are life threatening, our Pediatric Intensive Care Unit (PICU) is there to help. We founded Montana’s first PICU staffed 24/7 by board certified Pediatric Intensivists. That means that no matter the time of day or night, we always have a critical care specialist ready to help your child. Our dedicated PICU staff also utilizes electronic records and telemedicine to advise pediatricians throughout the region on the best course of treatment for children in need of critical care.

The expertise of our Pediatric Intensivists includes the management of illness, injuries, and chronic conditions that need critical care. They provide care to children who are critically ill, including the diagnosis and treatment of children who have unstable life-threatening conditions, through state-of-the-art monitoring, medication and treatment techniques based on evidence based guidelines. Critically ill children are cared for in our dedicated 5-bed PICU located within our 22-bed acute pediatric unit. We are currently in the drawing stages of redesigning our PICU and a cosmetic improvement to our pediatric unit. The newly designed PICU will feature private patient rooms with family space for support and comfort, soothing colors to enhance the healing environment, and multiple nurse work stations to increase the quality of care. Construction on this project will begin in summer of 2016, and continue into 2017 to finish the pediatric unit upgrade.
St. Vincent Healthcare, along with many in our region, said farewell to Patrick K. Goggins, whom we loved as a member of our healthcare family. Pat was beloved by many caregivers throughout St. Vincent Healthcare as he rallied time and again to face healthcare challenges. All considered it a privilege to care for this great magnanimous man who was recognized throughout the country for his dedication to the livestock industry. In 2012 when Pat was honored by the prestigious Saddle and Sirloin Portrait Collection for his lifetime of work, commitment and loyalty to the American livestock industry, we felt pride in our association with him and his exceptional family.

**Goggins Family Endowment for New Hope**

Each spring and fall the Vermilion Ranch Performance Sale, when prize bulls are offered at auction by the Goggins’ family, is highly anticipated by top ranchers across the nation. In spring 2008, Patrick and Babe Goggins began the tradition of auctioning prize bull, Lot 17, at the twice annual sale to create the Goggins Family Endowment for New Hope.

Pat was inspired to gift Lot 17 from the Vermilion Ranch Spring Sale after spending 17 days in the SV New Hope Rehabilitation Unit. It wasn’t just the support that Pat remembered from his stay at New Hope. It was the inspiration the staff gave him as they cheered him on.

“**They bring out the want-to in you. God puts the want-to in people and they really exemplify it.”**

– Patrick K. Goggins

Since that initial gift in 2008, the proceeds from the sale of Lot 17, combined with generous matching funds from Joseph and Linda Goggins and Jake and Sandy Jacobs, has brought the balance of the Goggins Family Endowment for New Hope to more than $140,000. Annual earnings from the Goggins Family Endowment helps purchase specialized equipment and programs to support patients as they regain mobility and travel the sometimes arduous road to recovery and independence.

Dennis Sulser, President and CEO, St. Vincent Healthcare Foundation stated, “We are fortunate in our work at St. Vincent Healthcare Foundation to occasionally witness exceptional families and how they love and support one another, work together and join together to change the world and make life better for others. The Goggins Family, an exceptional family, is one we are honored to consider part of our St. Vincent Healthcare family. We will sorely miss Pat.”

Through the Share Our Spirit (SOS Associate Giving Campaign) in 2015, an outstanding 50% of St. Vincent Healthcare associates made an SOS gift. Over $300,000 was raised as we all chose to share our abundance for the greater good. Thanks to St. Vincent Healthcare associates, in 2015 the SOS Campaign helped real people in the following ways:

- $25,000 in Patient Compassion funds paid for cab vouchers, meals, minor medical equipment, motel rooms and travel expenses for our patients and their families
- $60,000+ Employee Crisis funds supported 72 St. Vincent Healthcare employees in their time of need
- Over $46,000 Community and Children’s Fund funded community based healthy family and children’s services and programs.
- St. Vincent Healthcare Rural Clinics supported their own communities with $14,000 in SOS donated gifts.

$300,000 was raised as we all chose to share our abundance for the greater good. Thanks to St. Vincent Healthcare associates, in 2015 the SOS Campaign helped real people in the following ways:

- 72 St. Vincent Healthcare employees in their time of need
- Community and Children’s Fund funded community based healthy family and children’s services and programs.
- St. Vincent Healthcare Rural Clinics supported their own communities with $14,000 in SOS donated gifts.

Thanks to the generosity of SVH associates, the SOS Campaign will continue to be a strong component of the SVH Mission in improving the health of our community, especially for the poor or vulnerable.

FEATURED PHILANTHROPISTS:
Steve and Debbie Reger
Supporting the Healing Ministry of St. Vincent Healthcare

This year’s featured philanthropists are Steve and Debbie Reger. This noble couple understands personally and intimately what it means for a family to struggle with critical care health issues. As a result, their deep desire is to keep patients as close to home as possible for their care, so their families can support them on their arduous road to recovery. Their generous gift will help to create a peaceful and dignified environment for patients who are fighting for their life in our Intensive Care Unit. We are honored to recognize Steve and Debbie Reger, who exemplify a love of humanity (the definition of philanthropy) as our featured philanthropists of 2015.
FEATURED PROVIDER: William D. Knopf, MD MBA, FACC, FSCAI
Creating an Exceptional Patient Experience

Trust, empowerment, teamwork, and integrity. These are just a few things that resonate with Dr. William Knopf, Chief Cardiovascular Surgeon of St. Vincent Healthcare’s Montana Heart Institute. As a seasoned physician and experienced leader, Dr. Knopf understands the importance of a strong culture, especially in the healthcare setting. A new provider to St. Vincent Healthcare and the leader for the Heart Institute, he is on a mission to enhance the culture of care, safety, and patient interaction.

Dr. Knopf is a true advocate of the total patient experience. Dr. Knopf explains that patients of the Heart Institute can expect to experience better access to care, enhanced use of mid-level providers, a more streamlined approach to processes, and an increased element of human touch. Dr. Knopf also knows the importance of supporting rural areas in Montana, as he and Dr. Terry are committed to community outreach efforts.

A transplant from the Atlanta Cardiology Associates in Atlanta, Georgia, Dr. Knopf has been recognized for his excellence in patient care and promoted to an industry executive for his leadership aptitude. He’s happy to be “Out West,” as he and his family, which includes five grandchildren, enjoy the great outdoors. Traveling, fishing and hiking are just a few things he enjoys when he’s not wearing his white coat. He and his wife Robin look forward to integrating themselves into the Billings community.

At the end of the day, Dr. Knopf feels blessed to be leading the cardiovascular team at St. Vincent Healthcare and always puts the patient first. “There should be nothing we hold back, it’s all about taking every possible measure to ensure the patient is taken care of.”

“ It is imperative that the patient in front of you feels, for those moments that you are together, that they are the most important person in the world.”

– William D. Knopf, MD

PEDIATRIC UPDATE:
Children’s Hospital Affiliation to Advance Care to Children

St. Vincent Healthcare in Billings, Montana, Intermountain Primary Children’s Hospital and the University of Utah, both in Salt Lake City, Utah, are partnering for an affiliation in pediatric subspecialty healthcare services. All three organizations have a long history of providing quality and excellence in pediatric care, and share in common commitments to meeting the healthcare needs of their communities. These shared commitments will lay the foundation for leveraging the pediatric expertise and skills of Primary Children’s Hospital and their associated physicians so patients with more complex needs can receive their care in Billings. If a child needs a higher level of care that cannot be provided in Billings, he or she can be transferred directly to Primary Children’s Hospital, a 289-bed hospital in Salt Lake City staffed by pediatric subspecialists from the University of Utah.

The goals of this affiliation include:

- Improve the safety and quality of care provided to patients in Utah and Montana through combined clinical programs.
- Expand training opportunities for students and providers in both Utah and Montana.
- Promote research opportunities in pediatric care that will lead to better outcomes.

Our organizations have developed a governance structure to guide accomplishment of these goals and to oversee the planning and implementation necessary to achieve them. The governance structure includes physicians and leaders from St. Vincent, Primary Children’s Hospital, and the University of Utah.

There is tremendous excitement about this affiliation from members of all three organizations and we are working hard to move forward with the relationship.
Grants 2015

Awarded to St. Vincent Healthcare Foundation in 2015

- 13% State of Montana $338,970
- 8% Private Foundations $216,700
- 2% Corporate Grants $48,511
- 77% Federal Government $2,060,722

Foundation Events 2016
Benefiting the healing ministry of St. Vincent Healthcare.

The 36th Annual St. Vincent Healthcare Foundation Fortin Memorial Men’s Golf Tournament raises funds to support St. Vincent Children’s Healthcare. Proceeds make it possible to care for critically ill and injured children right here at home. The tournament is held at the Yellowstone Country Club on June 20, 2016.

The 2nd Annual St. Vincent Healthcare Foundation Call for Kids Radiothon will support St. Vincent Children’s Pediatric Intensive Care Unit, the only one of its kind in Montana and Wyoming. The radiothon will be hosted on TownSquare Media’s Cat Country 102.9 on February 16, 2016.

The 15th Annual St. Vincent Healthcare Foundation Marynell Heringer Women’s Golf Tournament will support St. Vincent Women’s and Children’s Services. The tournament is held at the Yellowstone Country Club on June 21, 2016.

The 38th Annual St. Vincent Healthcare Foundation SAINTS Ball is a premier fundraising event that includes an evening of dinner and dancing, along with live and silent auctions. The SAINTS Ball will support a renovation of the Pediatric Intensive Care Unit and pediatric patient rooms at St. Vincent Healthcare. SAINTS is held at the Holiday Inn Convention Center on October 1, 2016.

Warm up your vocal chords and join us at the 23rd Annual St. Vincent Healthcare Foundation Messiah Festival. Tickets are free to the public, and all funds are dedicated to the operation of the Meadowlark House, a free cancer patient lodging facility providing a “home away from home” for traveling cancer patients. This holiday tradition is held on Sunday, December 4, 2016, at the Alberta Bair Theater.

For more information on 2016 Foundation events and sponsorship opportunities, please contact St. Vincent Healthcare Foundation – Heather Bergeson at 406-237-3638 or visit www.svfoundation.org.
Endowment Funds

Endowment Funds provide a continuous source of funding for programs, equipment and education at St. Vincent Healthcare. Generous donors have created a legacy of philanthropy by establishing the following endowments. Current and future patients and employees will benefit from their gracious giving.

Greatest Needs
St. Vincent Healthcare Endowment
Dr. Wanah T. and Lillian Arnold Memorial Endowment for the Visually Impaired

Continuing Education Endowment
Do You Wish You Could Do More?

Please consider joining many of our other supporters who are investing in St. Vincent Healthcare’s healing ministry with a revocable – no obligation – gift through your estate. Perhaps you have witnessed areas within St. Vincent Healthcare’s facilities, programs or compassionate outreach services that could use extra help; and, you may have a personal passion for a particular aspect of our healing ministry. Will you consider following in the footsteps of others who are also grateful for the patient care provided by St. Vincent Healthcare by making St. Vincent Healthcare Foundation a revocable beneficiary within your will or trust or on a retirement asset that you hold? By doing so, you will help assure that the compassionate care and services that are important to you and those you love continue beyond your lifetime.

Mother Xavier Ross Legacy Society

We extend our heartfelt gratitude to the following members of the Mother Xavier Ross Legacy Society. Membership requires St. Vincent Healthcare Foundation donations, and St. Vincent Healthcare Foundation is one of the top 25 cancer patient treatment centers in the country.

Meadowlark House
A “Home Away from Home” for Cancer Patients

Meadowlark House (two duplexes), located at 24–30 30th Street West in Billings, Montana, is a residence for out-of-town patients receiving cancer care in Billings. The houses were donated by Kathryn and Preston Maynard in 2002, to be used for cancer patient lodging. The duplexes are managed by St. Vincent Healthcare Foundation.

Meadowlark House provides free lodging to cancer patients receiving treatment 4 or more days a week for several weeks. By providing this free lodging, we hope to alleviate the added stress that the financial burden of cancer and its treatment often brings.

Guests of Meadowlark House must be currently receiving cancer treatment from a licensed physician or treatment center in Billings. A referral is necessary, and must be made by a doctor, nurse, social worker, or other healthcare worker. Because patient needs change daily, it is difficult to reserve a Meadowlark House unit far in advance; but every effort is made to accommodate the varying needs of patients.
Foundation Scholarships

In keeping with the Mission, Vision and Core values of St. Vincent Healthcare and funded by generous donors to the hospital, St. Vincent Healthcare Foundation and St. Vincent Healthcare Volunteers are honored to offer more than $150,000 in education scholarships. We believe in providing numerous funding opportunities to the future “leaders” committed to improving the health and well-being of others. Among the scholarships available:

The Nelles Nurse Scholarship
Named for the Ralph Nelles Family, long-time supporters of nurses in our region, the Nelles Nurse Scholarship Program will provide recognition and financial support to student nurses semi-annually in an effort to set the highest healthcare standards and retain outstanding nurses in Montana. St. Vincent Healthcare recognizes that commitment to provide quality patient care requires a talented and experienced staff of professionals dedicated to superior customer superior service. As one of the largest medical centers in a four-state region, St. Vincent Healthcare employs over 2,200 people.

Scholarships are available to nursing students beginning the second semester of their sophomore year through the final semester of a bachelor’s degree nursing program. If pursuing an Associate’s degree, scholarships are available once officially accepted into the Nursing program.

Applications must be postmarked no later than April 1 for fall semester consideration and December 1 for spring semester consideration.

Thomas R. Johnson, MD
Medical Scholarship
This scholarship is a tribute to the late Dr. Thomas R. Johnson. Dr. Johnson’s legacy is reflected in the scholarship’s elements. He was a renowned orthopedic surgeon and academic physician leader with a special focus on rural patients. Dr. Johnson’s father and mother practiced medicine in Montana and Tom remained committed to patients throughout the region surrounding Billings.

Robert Snider, MD
Medical Scholarship
Dr. Robert Snider was instrumental in the development of the stellar orthopedic program at St. Vincent Healthcare. As President of the St. Vincent medical staff, Dr. Snider was a leader by example. His academic, research and writing interests around orthopedic medicine are still legend among his peers. Known as a “Renaissance man,” Dr. Snider was a wonderful musician and notable by the connections he made with each patient he cared for. This scholarship honors his legacy.

The Theresa Burch Memorial Scholarship for Advanced Practice Nursing
As a tribute to the profession so dearly loved by her sister, Theresa Burch, Judith Wallinder generously established the Theresa Burch Memorial Scholarship for Advanced Practice Nursing. The late Theresa Burch was an exceptional nurse. She had advanced training and was excellent at mentoring less experienced nurses, assuring patients were treated by the most skilled, compassionate and dedicated nursing staff possible.

Healthcare Career Scholarships
In keeping with the Mission, Vision and Core Values of St. Vincent Healthcare, St. Vincent Healthcare Foundation and Volunteers are thrilled to offer more than $20,000 in education scholarships. Applicants must be enrolled or plan to enroll in an accredited post-secondary institution of higher education in pursuit of a career in healthcare and have a GPA of 3.0 or higher.

Turning family rooms into exam rooms.

Whether you need care for a persistent cough or your child’s pink eye, you can now conveniently speak with a doctor from the comfort of home — all for less than the cost of an urgent care co-pay. With the new app from Doctor On Demand and SCL Health, a video visit with a board-certified physician is just a few taps away.

Don’t drive, walk or ride. See a doctor now at sclhealth.org/doctorondemand.
Sister Marie Damian Glatt Leaves a Legacy of Service

By Steve Loveless, CEO, St. Vincent Healthcare

There are many notable Sisters of Charity of Leavenworth who have shaped our health care ministry. One of the most significant has made her final journey home. Sr. Marie Damian Glatt died on Saturday, January 16, surrounded by her sisters in community at the Mother House in Leavenworth, Kansas.

She graduated from Billings Central High School and later served as principal of Kate Fratt Memorial Grade School in Billings before moving into the health care ministry. She served as the Director of Planning and Outreach at St. Vincent Healthcare in the 1980’s before moving into the role of Vice President of Planning and then CEO for our health system, a role she served from 1992-2001. Most recently she served St. Vincent and SCL Health as a board consultant, using her gifts to help recruit and train board members. She developed a systematic approach to this work that is nationally recognized and continues in our ministry today. She also brought intentional focus to our community benefit work, calling for stronger assessment of needs, especially the needs of the most vulnerable around us.

I had the privilege of knowing Sister Marie Damian and had some very sweet associations with her. The first time I met her was like meeting a concerned parent before a first date. She had a lot of questions about where I was coming from and my qualifications to lead. She was very proud of and protective of this health ministry. As our relationship grew I looked forward to being greeted by her smile and always appreciated her support and encouragement. My most special memory with Sister Marie Damian was the afternoon we spent at the Motherhouse as she conveyed the history and significance of the ministry.

Sr. Marie Damian leaves us a 60-year legacy of service to the poor and vulnerable founded on her personal commitment to reveal and foster God’s healing love. It is our work to continue that commitment in the service to our patients and broader community.
